

## **Elbit Vision Systems Wins Orders from Two Leading US-based Aerospace Manufacturers**

**Combined orders in excess of \$1 million**

**Qadima, Israel – October 28, 2008 - Elbit Vision Systems (OTCBB: EVSNF)** today announced that it has won two orders for ultrasonic inspection systems, with total value in excess of \$1 million. The orders are to be delivered, and revenues recognized, during the first quarter of 2009.

The orders are from two leading US-based Aerospace manufacturers, for the supply of Ultrasonic inspection systems to check for structural flaws in aircrafts and jet-engine parts prior to assembly.

David Gal, CEO and Chairman of the Board, “Again, we are proud to be a key supplier of Ultrasonic inspection solutions to leading US-based aerospace manufacturers, both well known for their focus on the safety and quality of the engines they manufacture. Aircraft engine inspection is a very much a mission-critical task, and we take this responsibility very seriously. Our customers appreciate our attention to detail, and our success in this field is very much evident by the fact that leading manufacturers continue to use our equipment for the most important safety checks- that of structural integrity.”

Mr. Gal continued, “This order is another testament to our competitive advantages, as well as the dependability of our solutions. These customers also represent strong references for us and we can leverage these order wins to bring additional business in the aerospace sector.”

**About Elbit Vision Systems Ltd. (EVS): [www.evs-sm.com](http://www.evs-sm.com)**

EVS offers a broad portfolio of automatic State-of-the-Art Visual and Ultrasonic Inspection Systems for both in-line and off-line applications, and quality monitoring systems used to improve product quality, safety, and increase production efficiency. EVS' systems are used by over 600 customers, many of which are leading global companies. The headquarters, manufacturing and R&D of EVS are all located in Israel. A worldwide Sales and Service network supports markets as well as systems already installed, in Asia, Europe, Africa, Australia and the Americas.
